APPLICATION FOR PATIO ENDORSEMENT

DATA PRIVACY NOTICE: The data you supply on this form will be used to assess your qualifications for the license. You are not legally required to provide this data, but we will not be able to grant the license without it. If a license is granted, the data you have supplied will constitute a public record and copies may be issued to anyone requesting them. The required data allows us to distinguish you from other applicants; to identify you in our license files; to verify that you are the person who applied for the license; to contact you if any additional information is required; to determine whether you meet any minimum age requirements; and to determine if any conviction you may have on record might affect your suitability as a license-holder. Your residence address and telephone number will be considered public data unless you request this information to be private and provide an alternative address and telephone number. (See below.)

Please sign below to indicate that you have read this notice.

Signature __________________________________________

Definitions:

2006 International Building Code

Section 1008.1.9 Panic and fire-exit hardware. Where panic and fire exit hardware is installed, it shall comply with the following:

1. The actuating portion of the releasing device shall extend at least one-half of the door leaf width.
2. A maximum unlatching force of 15 pounds (67N)

Each door in a means of egress from an occupancy of Group A or E having an occupant load of 100 or more and any occupancy of Group H-1, H-2, H-3 or H-5 shall not be provided with a latch or lock unless it is panic hardware of fire exit hardware.

If balanced doors are used and panic hardware is required, the panic hardware shall be of the push-pad type and the pad shall not extend more than one-half the width of the door measured from the latch side.

Vehicle barriers. Guard posts shall comply with the following requirements:

1. Constructed of steel not less than 4 inches in diameter and concrete filled.
2. Spaced not more than 4 feet between posts on center.
3. Set not less than 3 feet deep in concrete footings on not less than a 15 inch diameter.
4. Set with the top of the posts not less than 3 feet above ground.
